  - Uplevel

# About "BIB"

Scale Up or Down – Pay as You Go

"There are 28 million small businesses in the US today upwards of 500 employees. All need computers to survive and many have adopted the "Bring or Borrow Your Own Device" policy to get around the high cost of hardware and IT support services; which is a foundation for larger and serious problems. IT knowingly or unknowingly is literally...your business!" – National Small Business Administration

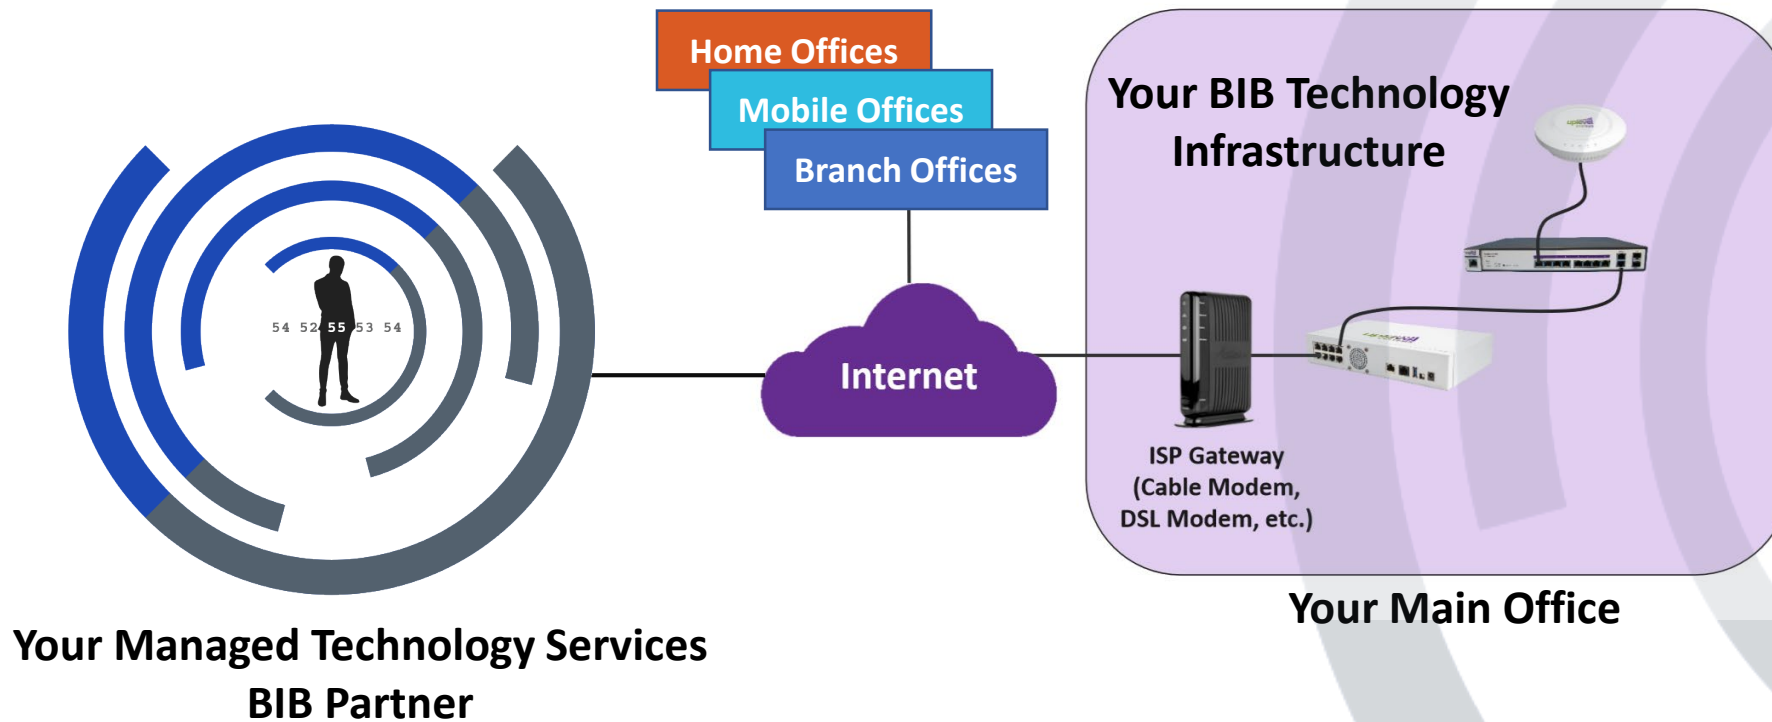

Enter Counterspherics **B**usiness Infrastructure in-a-**B**ox or BIB. BIB replaces, reduces, and consolidates, major corporate technology infrastructure services onto (1) powerful piece of hardware. BIB replaces the need for:

- An IT Staff (to manage the below listed features)
- A Office Wi-Fi Access Point
- A Virtual Private Networking Service (LAN)
- A File Server
- A Firewall
- An Intrusion Detection System (Cybersecurity)
- A DNS Server/Service
- A Voice over IP (VoIP) Switch
- A Disaster & Recovery Server/Service
- Branch Offices to Main Corporate Network (WAN)
- A File Backup Server/Service
- A Backup Scheduling Service
- A Cloud Backup Server/Service
- A Router
- A Load Balancer
- A Network Health Monitoring & Alerting Service
- A Remote Access Server/Service
- A Virtual LAN (VLAN) Configurable Switch
- A File Access Control Management System/Service
- Wi-Fi Hotspot for Customers/Partners/Guests
- Network Configuration & Administration Services

Ex: Enterprise Firewall, VPN, 1TB File Server, 500GB Cloud Backup = \$99 Monthly!

# Your "BIB" Technology Foundation

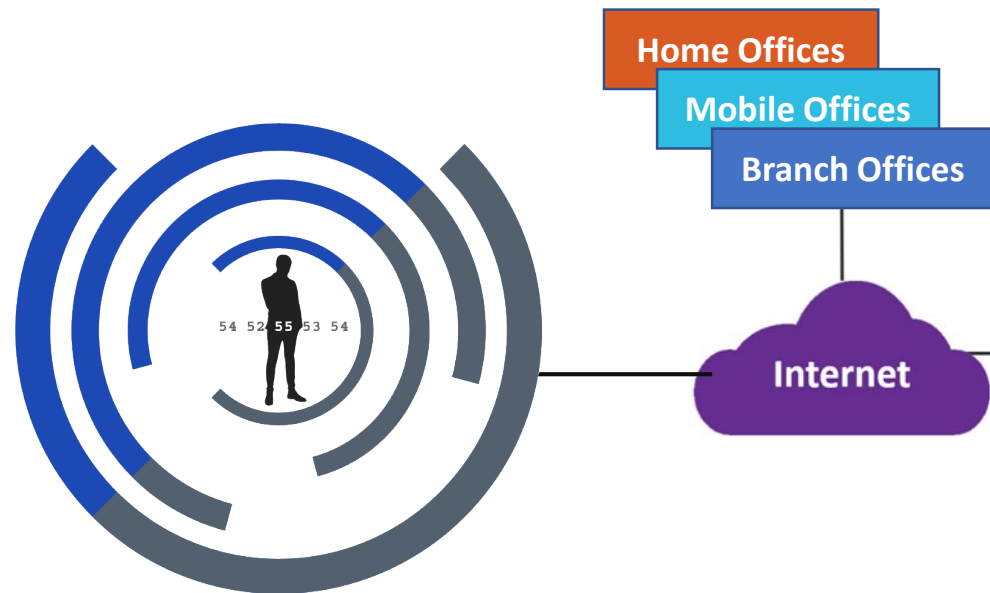

Don't Buy All That Expensive Complicated Hardware! **BIB** is Simple and Budget Friendly!

BIB Management Console

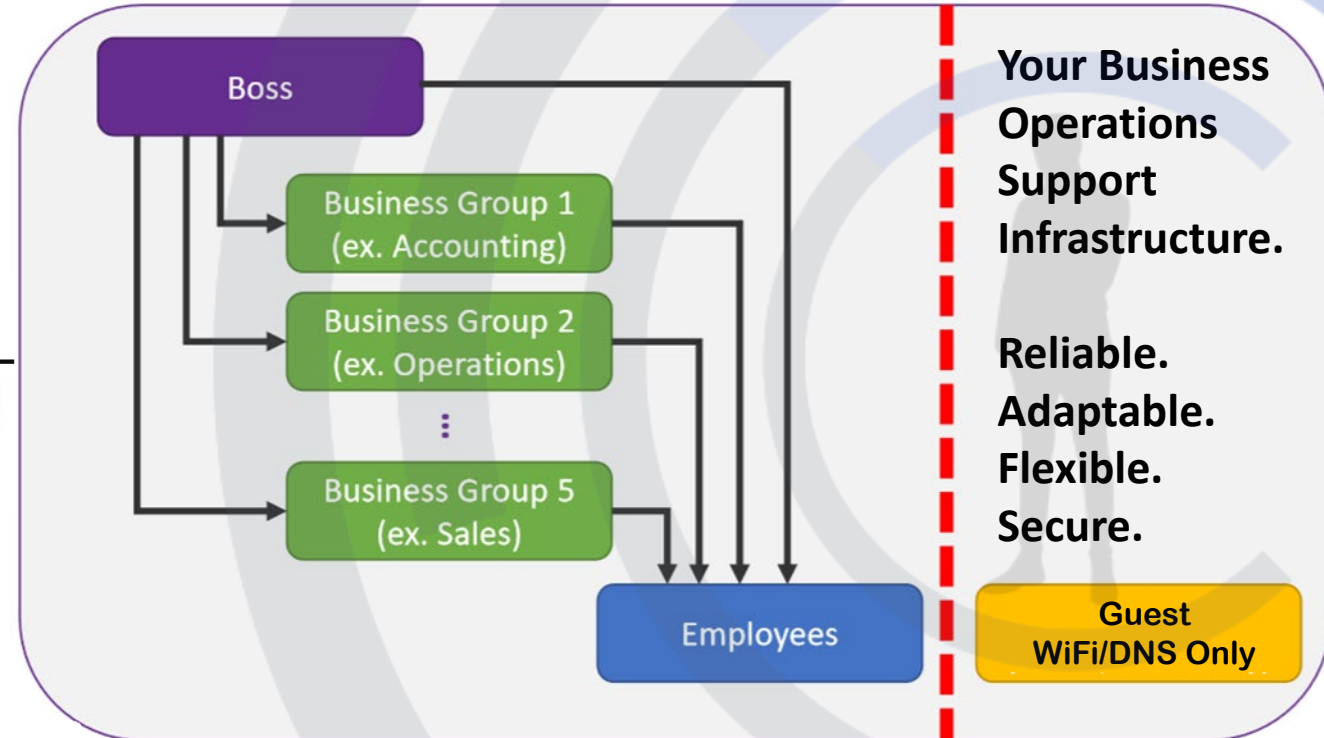

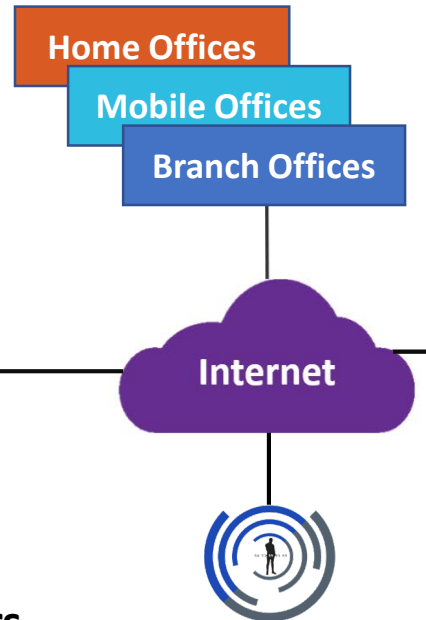

As your business expands we'll turn on or off the services you request – you only pay for what you use. No IT or additional IT staff to hire. If you need another **BIB** unit – not a problem. Your Business Supporting Technology Infrastructure grows with you but without the high cost.

# Your “BIB” Business Operations

**Your Customers, Suppliers,  
Vendors, Employees, & Partners...**

Industrial Age to the Information Age: Protect your business while reducing your workload through sharing Files, Invoices, Contracts, Proposals, Agreements, Images, and other documents. Automatically backup your files locally and to Amazon’s Secure Storage Servers. Information is your business...safeguard it!
